HALLOWEEN MONSTER BLUES

(Hard to Meet Women When You Look Like This)

Ted Parks and the Busted Bones

D

Well, Frankenstein was a friend of mine

G

We used to go out for a beer or a glass of wine

A

D

And we'd talk about all the things that were dragging us down

D

I'd complain about traffic or kids these days

G

And why my boss won't give us a raise

A

D

And he'd shake his head and say: Man you got nothing on me

D

I got this big old body and a little tiny brain

G

That was stolen from a guy who was criminally insane

A

D

And then they sewed these on the side of my neck

D

But the biggest hassle is the dating scene

G

When you're six foot ten and your skin's a pale green

A

G

It makes it kind of difficult to find a lady

[CHORUS]

D

He said its hard to meet women when you look like this

G

You can count on one finger all the ones that I've kissed

A

I try not to scare 'em, but I can't resist

D

It's hard to meet women when you look like this

D
Well my friend Drac's got a cape on his back
G
He's got pointy little teeth and his hair's slicked back
A D
And that accent of his, man you'd think the girls would come running

D
But it's hard to date women in the usual way
G
When you're sleeping in a box in the basement all day
A G
And that thing about changing into a bat, that just freaks 'em out

D
He used to have a girl, her name was Lorraine (Jane)
G
Until he sunk his teeth into her jugular vein
A D
And that's what Dr. Phil calls a relationship ender

D
He said it's hard to meet women when you look like this
G
You can count on one finger all the ones that I've kissed
A
I try not to scare 'em, but I can't resist
D
It's hard to meet women when you look like this

D
Now the Wolfman he's not all that scary
G
Sure his teeth are a little pointy and his face is a little hairy
A D
But after all he's a cousin of man's best friend

D
He's house broke and up to date on his shots
G
And compared to most guys, that's saying a lot
A G
And you've got to admit ladies, he's rocking that mullet

D
Just don't be around him when the moon is full
G
He'll tear out your lungs and bash in your skull
A G
I guess you gotta just say its his time of the month

D
He said its hard to meet women when you look like this
G
You can count on one finger all the ones that I've kissed
A
I try not to scare 'em, but I can't resist
D
It's hard to meet women when you look like this

-----Song Key changes from D to E -for last verse and final chorus-----

E
So ladies all I'm asking is you give them a chance
A
Buy them a beer or ask them to dance
B E
Beneath that cold exterior is a heart of gold

E
I think the danger here is over rated
A
Can't be worse than the biker you dated
B E
Or that creepy guy you met on date.com

E
These guys ain't monsters they're just misunderstood
A
A firm handed woman would do 'em some good
B E
And besides, you always said you liked the bad boys anyway

E

They say its hard to meet women when you look like this

A

You can count on one finger all the ones that we've kissed

B

We try not to scare 'em, but we can't resist

E

It's hard to meet women when you look like this

B

E

It's hard to meet women when you look, when you look, Like... This
